

Torture me

Mono Inc.

There is no prevarication
and refugees can remigrate
A sad world is strictly healing
and my breed swims in love and not in hate

But that's just how you wish it would be
That's just what you're hoping for

Don't wake me up
Life's deeper when I dream
Don't you torture me
Don't wake me up
You can't hurt me when I sleep
Don't you torture me

The last word is still unspoken
and our skin is still unhurt
Our depression on vacation
and our hopes lie in wad and not in dirt

But that's just how you wish it would be
That's just what you're hoping for

Don't wake me up
Life's deeper when I dream
Don't you torture me
Don't wake me up
You can't hurt me when I sleep
Don't you torture me

The big scars are not existent
and our system is retrieved
There is lowdown for the pilgrims
'cause our god is a host and not a thief

But that's just how you wish it would be
That's just what you're hoping for

Don't wake me up
Life's deeper when I dream
Don't you torture me
Don't wake me up
You can't hurt me when I sleep
Don't you torture me
