

# Sinzing Sunset Boulevard

Moodorama

When you appeared and suddenly i saw myself  
Again nobody knew who i was not even me  
Did i find me or another us - who knows  
But i don't care anymore  
Simple things in life are the best  
Love so warm besides  
Simple things in life are the best  
Love so warm besides  
I took up the chase and tried to catch as much as possible  
Didn't find truth how should i know my fate was life  
Can you hear the edge i do and i think it's harmless  
Otherlands like you unknown and new  
Simple things in life are the best  
Love so warm besides  
Simple things in life are the best  
Love so warm besides  
I fell in love and then it took me up  
But my soul needs the flow  
Can't tear me up  
Simple things in life are the best  
Love so warm besides  
Simple things in life are the best  
Love so warm besides  
Overwhelming the strength gave me the sense of life  
Could it be so wrong the pulse should never die  
Then beauty strikes and life comes out of the golden days  
I fell in love and then it took me up  
Simple things in life are the best

Love so warm besides

Simple things in life are the best

Love so warm besides
