## **Sinzing Sunset Boulevard**

## Moodorama

When you appeared and suddenly i saw myself Again nobody knew who i was not even me Did i find me or another us - who knows But i don't care anymore Simple things in life are the best Love so warm besides Simple things in life are the best Love so warm besides I took up the chase and tried to catch as much as possible Didn't find truth how should i know my fate was life Can you hear the edge i do and i think it's harmless Otherlands like you unknown and new Simple things in life are the best Love so warm besides Simple things in life are the best Love so warm besides I fell in love and then it took me up But my soul needs the flow Can't tear me up Simple things in life are the best Love so warm besides Simple things in life are the best Love so warm besides Overwhelming the strength gave me the sense of life Could it be so w rong the pulse should never die Then beauty strikes and life comes out of the golden days I fell in love and then it took me up

Simple things in life are the best

Love so warm besides

Simple things in life are the best

Love so warm besides
