## **Big Surprise**

## Motorpsycho

So it hurts-well, big surprise Get up, go and cut those ties You're nothing to her now Eleven years all up in smoke Was it really just a joke? Mistake's too small a word

So small, I've never seen you quite so small So small

So you cut your hair and drink,
A little boy caught in the stinkIt always feels this way
And when you stop and wonder why,
The only answers feel like liesAnother big surprise

So small, I've never seen you quite so small So small

So let it lie So let it die The quirks along the way are what you Learn from anyway!
