

# Without It

Mutemath

Here we are, isn't life bizarre  
It likes to take from us and throw it out  
We'll carry on, what's done is done  
Yeah, we'll do without it somehow

The world's gone don't think about it  
'Cause life is short, we'll do without it  
They say the road's long, don't think about it.  
'Cause life is short, we'll do without it.

We can move on from here, don't worry  
The best we've known is yet to come  
We can move on from here, don't worry  
The worst won't get the best of us.

Some memories are crippling  
Don't let the disease bring us down  
There's nothing else to know, just let it go  
Yeah, we'll do without it somehow.

The world's gone don't think about it  
'Cause life is short, we'll do without it  
They say the road's long, don't think about it.  
'Cause life is short, we'll do without it.

We can move on from here, don't worry  
The best we've known is yet to come  
We can move on from here, don't worry  
The worst won't get the best of us.

The world's gone don't think about it  
'Cause life is short, we'll do without it  
We'll do without it  
We'll do without it  
We'll do without it  
We'll do without it  
Yeah

We can move on from here, don't worry  
The best we've known is yet to come  
We can move on from here, don't worry  
The worst won't get the best of us.

Though the world is gone, we'll carry on  
We'll do without it, we'll do without it.  
Though the world is gone, we will carry on  
We'll do without it, we'll do without it.
