

# Fearless

Nabiha

Heard all of the stories  
Bought all of the lies  
Felt so far from glory  
Kept shutting my eyes

We give and we take, create then break  
We gotta find the soul  
All we do as we're told  
Wasting away, the numb on the pain, mmm  
Scared to get old and being alone  
Throwing away what we rightfully own  
Who's to decide what's wrong and what's right

If we could be fearless, fearless  
Every heart knows, that's where the love grows  
Fearless, fearless  
Let all your love show...fear

Caught up in the system  
Forgetting that I  
I'm living and breathing  
I won't fall out of life

We give and we take, create then break  
We gotta find the soul  
All we do as we're told  
Wasting away, the numb on the pain, mmm  
Scared to get old and being alone  
Throwing away what we rightfully own  
Who's to decide what's wrong and what's right?

If we could be fearless, fearless  
Every heart knows, that's where the love grows  
Fearless, fearless  
Let all your love show...fear

Fear in my soul, I got fear in my soul  
And I got fire in my soul, and I got fire in my soul

Heard all of the stories  
Now minding my own!

If we could be fearless, fearless  
Every heart knows, that's where the love grows  
Fearless, fearless  
Let all your love show...fear.
