The Missing Link

Napalm Death

An integral sense Comes with belonging to a scene Supposedly absent of barriers (When sexism is only one of many)

Earnest words Calling for unity of the sexes When she's still the chick, or stupid bitch (Ridiculed for showing an interest).

Hidden indifference Strikes an emotion reaction When you see an animal being abused.

Yet un-noticed when a woman Is abused in the same way.

The links in oppression Stem from the same degradation But to one our eyes remain closed.

Actively abusing the rights of one Whilst fighting for those of another.

The 'scene' may hold a different name, But the roleplays just the same. Egual rights are fine, As long as she's in her place.

Outrightly denouncing fascism Whilst oblivious to it taking place, Is condemnation of standarts, All an act to save face.

Unity a stark ambition When out abuse surpasses recognition.
