## When You're Sleeping

## Natalie Imbruglia

The sun came up Desperate, desperate The stars above Held you back Once again

Half way here Half way here they whisper

You talk so much sense When you're sleeping When you're sleeping

And you share all the secrets And the mystery When you're sleeping

I saw your tears Violet, violet And it's been years The sky's been crying for you I found out Beautiful things about you You talked so much sense When you're sleeping When you're sleeping, yeah

And you share all your secrets And the mystery When you're sleeping

So you go and wonder Where you wander Lose yourself to take us higher And I'll be waiting For you when you're down

You talk so much sense When you're sleeping When you're sleeping, yeah

And you share all the secrets And the mystery When you're sleeping
