

# You Love Another

Nazareth

Don't wanna live she said  
No more to give she said  
I can't forgive she said

You love another, you love another

Can't live alone she said  
Left off the phone she said  
Can't face the storm she said

You love another, you love another

Don't make me cry she said  
Just let me die she said  
Kiss me goodbye she said

You love another, you love another

Don't take the blame she said  
And I can go insane she said  
Never the same she said

You love another, you love another

You love another, you love another  
You love another--my heart is tearing

You love another  
You love another--no longer caring

You love another  
You love another--my heart is tearing

You love another--no longer caring  
You love another
