

# High Enough

Nemesea

Bring me back  
To the times I can't remember  
I'm holding on  
To that feeling we have lost

I need to breathe  
'Cose these spaces are too narrow  
I've lost control  
Over frame and state of mind

Don't you know it seems like forever you belonged  
To me, to me  
Together forever  
Was a promise that you let me make

Can you take me high enough?  
Won't you bring me down?  
I will never know what you really show  
Let me go  
'Cos you can't take me high enough

You're free from me  
Is it what you always hoped for?  
And do you know  
That you'll leave it all behind

I'm so confused  
I thought what we had was special  
But all is gone  
And you knew it all along

It seems like forever I belonged  
To you, to you  
Together for always  
Was a promise you left here to break

Can you take me high enough?  
Won't you bring me down?  
I will never know what you really show  
Let me go  
'Cos you can't take me high enough

I never told you nothing  
No promises were made  
And I don't owe you anything at all  
You meant nothing to me  
Now stop and let it go  
Both of you couldn't take me high enough

You can't take me high enough  
You won't bring me down  
I will always know you will not let go  
We both know  
That we can take it high enough
