Passing Planes

Newton Faulkner

Set in motion, passing planes
Where we are, running over
So much to say, in my head

I gave you all that you wanted
All that you wanted, all that you wanted
I gave you all that you wanted
All that you wanted, all that you wanted

If all we are is passing planes
Should we try and try again
I thought this was more than wasted pain
Now the love doesn't mean a thing
I gave you all that you wanted
All that you wanted, all that you wanted
I gave you all that you wanted
I thought you wanted the same
We're just passing planes

Killing nature, passing blame
Chasing time, is not the same
Its never over, get under my skin
Its wearin' thin

I gave you all that you wanted
All that you wanted, all that you wanted
I gave you all that you wanted
All that you wanted, all that you wanted

If all we are is passing planes
Should we try and try again
I thought this was more than wasted pain
Now the love doesn't mean a thing
I gave you all that you wanted
All that you wanted, all that you wanted
I gave you all that you wanted
I thought you wanted the same
We're just passing planes

If all we are is passing planes
Should we try and try again
I thought this was more than wasted pain
Now the love doesn't mean a thing
I gave you all that you wanted
All that you wanted, all that you wanted
I gave you all that you wanted
I thought you wanted the same
We're just passing planes
