

Sleep At Night

Niceland

I know what you wanted
you told me all your secrets right away
And you
You wanted to want me
like that's the easiest thing that I could get

Is this how you always are
Is this how to live a lie
Is this part of afterlife
Or are we gonna die tonight?

'Cos I
I wanted to be in your league
I always enjoyed being weak
And you
You stole me from world of sleep
you always dig way too deep
How do you sleep at night?

And I know what you wanted
As soon as I get better you'll go away
And you,
you'll never be worried
there's always someone easier to tame

I would do this again...
