

It's Your Dream

Nikka Costa

Looking at tomorrow sets you free from yesterday
Giving up your sorrow is the key to find your way
Living for the moment is the only way to grow
Life is what you make it by now you ought to know

It's your dream so take it
It's your dream go make it all come true
Right now
It isn't very hard to do if you believe in you
It's your right so free it
It's your light so see it to the end
My friend
Cause you're never gonna pass this way again

And if sometime along the way you stumble and should fall
At least you know inside you you're giving it your all
Don't be ashamed of losing and you'll find you just might win
Don't be afraid of giving and love might just begin

It's your dream so take it
It's your dream so make it all come true
Right now
It isn't very hard to do if you believe in you
It's your song so sing it
It's your bell so ring it to the end
My friend

Cause you're never gonna pass this way again
No you're never gonna pass this way again
