

Kaboom Pow

Nikki Yanofsky

I'll be your wonder woman
You'll be my superman
Or I could play the villain, try to catch me if you can
Coloured pages come to life when you are by my side
You be my hero for the night I'll be your kryptonite

Taking off now ooh

Tonight were going 24 hours
So turn it up a little bit louder
Blowing fuses, feel the power
Popping now like a kaboom pow [x2]

You always make me blush
Cuz you so marvel-ous
My X-ray vision on a mission looking out for love
I see your signal in the sky and know your on your way
Chasing trouble for the night and then we'll save the day

Tonight were going 24 hours
So turn it up a little bit louder
Blowing fuses, feel the power
Popping now like a kaboom pow [x2]

Rescue me from the black and the white
Pick me up and we'll fly high tonight

Tonight were going 24 hours
So turn it up a little bit louder
Blowing fuses, feel the power
Popping now like a kaboom pow [x2]
