

What If

Nina

You know the things I said to you
Not for a minute did I ever mean it
I could see it in your eyes
The hurt and the surprise
Oh

Somehow the words just got away
Don't think I never tried to stop it, no, no
I had to watch you turn around
Walk away without a sound
Tell me baby,

What if I took it back?
What if you would forgive me?
I would do anything,
To undo what I did last night
Oh, oh
What if we could turn back time?
Back when you would believe me.
Would you help me instead?
To unsay what I said last night
What if wrong could turn to right?

Oh no, no

We're not meant to be this way
We're not supposed to share our destiny like this
All the plans that we have made
Can't let them fade away
Fade away,

There ain't no distance too far
I put myself on the line
There's nothin' I wouldn't do
To get you back in my life

Woah'oh'yeah, yeah

Whoa oh yeah
What if
