

On the white summit of eternity  
A single Soul bare infinites,  
Guarded he keeps by a fire-screen of peace  
His mystic loneliness of nude ecstasy.

But, touched by an immense delight to be,  
Loos across unending depths and sees  
Musing amid the inconsistent silences

At the world's dawn, at the cosmic night  
Absorbed in thoughts, abomination  
Captured in flesh, celestial mind  
Emotional fragments, chamber of nowhere

Waiting and watching for the sign send,  
As out of the vortex my mind will blend  
Caught in the turmoil, spinning around,  
Reaching for calm, not to be found.
