

It's About Time

One Night Only

So many new faces
Familiar places
But I found my tracks to their hearts
And all the people I already know
I hope I left with a place in their hearts
Cause they left with a place in my heart
Ooohh

Its about time you're back in my life
Cause I miss you honey
Its about time you're back in my sight
Cause I need you honey

So all of these faces
And brand new places
Are a fresh start to my life
And now I know where I wanna go
I'm gonna make sure I do it just right
Cause if I don't I know things wont feel right
Ooohh

Its about time you're back in my life
Cause I miss you honey
Its about time you're back in my sight
Cause I need you honey
But I don't need you honey
But I still miss you
But then it came so clearly
That I don't need you anymore

My best advice is to comprehend
Ditch this tension, make amends
for the new times, not old time
woooah

Its about time you're back in my life
Cause I miss you honey
Yes, it's about time you're back in my sight
Cause I need you wooah
