

# Lift Me Up

OneRepublic

If I told you I was down I was down would you help me  
Told you I was down I was down would you lift me up  
I need your strength I'll be up someday  
If I told you I was down I was down would you lift me up

I have this human love  
It shattered once or twice  
It pulls me up and down  
If it's filled with jagged ice  
Everyday I'm wanting something I ain't havin' mmhm mmhm  
I have this human heart  
My mother told me so  
She said this shit can go to pieces boy be careful  
But you and me and me and you got something magic mmhm  
So I say to you

If I told you I was down I was down would you help me  
Told you I was down I was down would you lift me up  
I need your strength I'll be up someday  
If I told you I was down I was down would you lift me up

If I told you I was broke I was broke would you fix me  
Told you I was down to the line would you lift me up  
I need your strength I'll be up someday  
If I told you I was down I was down would you lift me up  
Lift me up, lift me up, lift me up, lift me up

I have this human love  
My mother told me so  
She said this world could bring you down so don't be swinging low  
Cause you and me and me and you got something magic mmhm  
So I say to you

If I told you I was down I was down would you help me  
Told you I was down I was down would you lift me up  
I need your strength I'll be up someday  
If I told you I was down I was down would you lift me up  
Lift me up, lift me up, lift me up, lift me up

I got my problems but I don't need you to solve them and I don't care  
Like it in that all my shit is right there  
I wear my issues like tattoos across my chest  
And people notice I tell them you ain't seen nothing yet  
Brother lift me, brother lift me  
Lift me up and be my strength I'll be up someday  
If I told you I was down, I was down  
Lift me up, lift me up, lift me up, lift me up

I got my problems but I don't need you to solve them and I don't care  
Like it in that all my shit is right there  
I wear my issues like tattoos across my chest  
And people notice I tell them you ain't seen nothing yet  
Brother lift me
