

# Tonight

Paddy Casey

Tonight, this loneliness has found you  
Tonight, there's a darkness that surrounds you  
Adjusts your state of mind  
It's got you in this blind

You can't move, so you lay upon your bed  
You run through, all the darkness in your head  
And hope that sleep will bring  
An end to everything

And this shadow, that's hanging over you  
Makes it feel just like, well you won't make it through  
So please just stay around  
'Cause where there's life there's hope  
And a heart gets found

Well you feel like your lost and left for dead  
You've made real, all these ghosts inside your head  
And these ghosts are so unkind  
They adjust your state of mind

And this shadow, that's hanging over you  
Makes it feel just like, well, you won't make it through  
So please just stay around  
'Cause where there's life there's hope  
And a heart gets found

And this shadow that is hanging over you  
Makes it feel just like, well, you won't make it through  
Please just stay around  
'Cause where there's life there's hope  
And a heart gets found

Hey, what's hanging over you  
How d'ya get so down?  
How d'ya get so blue?  
So please just stay around  
'Cause it's much better when you can be found
