Mr. Peterson

Perfume Genius

My work came back from class With notes attached Of a place and time Or how my body kept him up at night

He let me smoke weed in his truck

If I could convince him I loved him enough

Enough, enough, enough

He made me a tape of Joy Division He told there was a part of him missing When I was sixteen He jumped off a building

Mr Petersen
I know you were ready to go
I hope there's room for you up above
Or down below.
