

# God Is With Us

Point Of Grace

A rushing river sweeps around us  
Just as hard and cold as night, it surrounds us  
But we pass through the water to a safer shore  
We're sheltered from the raging river's roar

Though the night is long  
And the river's strong  
Still God is with us  
We can stem the tide  
Reach the other side  
For God is with us

The river depends, night grows darker  
And the struggle seems to be getting harder  
Today has troubles yesterday has never known  
But we don't have to face them on our own

Though the night is long  
And the river's strong  
Still God is with us  
We can stem the tide  
Reach the other side  
For God is with us

And when we face the river's roll  
He holds our hand and won't let go

Though the night is long  
And the river's strong  
Still God is with us  
We can stem the tide  
Reach the other side  
For God is with us
