

## Ride Child Ride

Poison

Well, I'm sitting here this evening  
I got some old friends on my mind, yeah I do  
Yeah, me and Slick and Davy saluting Mr. Daniels  
For the very first time  
We was jamming to old Jimi, singing Purple Haze  
No Doubt, no, no  
I think between the weed and the whiskey  
My head went north and man my feet went south

We had some good times  
And man do I remember them well  
Those days are long gone  
But now I got to tell you just how we left some stories to tell  
Ride child ride,  
Hell we had some good times then  
Ride child ride  
sometimes I need those times again  
Do you remember when?

Remember all our big talk  
How we were going to be president  
one day, baby  
How we were going to save the whole world  
But man I got to tell you lord  
Didn't have a clue back then, no.

We had some good times  
And man do I remember them well  
Those days are long gone  
But now I got to tell you just how we left some stories to tell  
Ride child ride,  
Hell we had some good times then  
Ride child ride  
sometimes I need those times again  
Do you remember when?

Ride child ride  
Hell, we had some good times when  
Ride child ride  
Sometimes I need those times again  
Ride child ride  
Hell, we had some good times then  
Ride child ride  
Take me back there, man, do you remember when?
