

We Want It All

Powerman 5000

I need you to know now
Are you in, are you out?
Are you going down?
Will you make the mistakes of this ghost town?
Or collect your respect from the last round
From the last round

We want it all, we want it all, we want it
We want it all, we want it all
We want it all, we want it all, you got it
We want it all, we want it all

Here comes the payback
Taking what we deserve from the other stack
We love the sound from the ground when the bones crack
And the smoke from the fire turns the sky black

We're shooting laser beams
Getting stuck in your brain like a bad dream
And there's no other choice than to make you scream
'Cause we need a little more, know what I mean
Know what I mean

We want it all, we want it all, we want it
We want it all, we want it all
We want it all, we want it all, you got it
We want it all, we want it all

Can you be like me? Take all that you see
Don't ask why or who, when you want it too
Where's your head now, what's your belief?
When you're a crook but not quite a thief
When too much is never enough
Too much is never enough

We want it all, we want it all, we want it
We want it all, we want it all
We want it all, we want it all, we want it
We want it all, we want it all
We want it all, we want it all, you got it
We want it all, we want it all
