Bye Bye For The Better

Preluders

When the party's over we don't have to dance
When the lights go down we don't have to hang around
If you don't really know, how to break it to me
Well, how about some honesty, honesty!

We go bye bye bye for the better
We don't have to lie lie lie no not ever
Baby when we're through uh uh uh
When there's nothing left to do
We go bye bye bye for the better
And dive in to someone new

When the wheels have turned and brought us to the end
There's no time to waste, no reasons to pretend
If you don't really know, how to break it to me
Well, how about some honesty, honesty!

We go bye bye bye for the better
We don't have to lie lie lie no not ever
Baby when we're through uh uh uh
When there's nothing left to do
We go bye bye bye for the better
And dive in to someone new

Someone who really loves me, who will take away this blues
This time,will be forever, and I hope he reminds me of you
If you don't really know, how to break it to me
Well, how about some honesty, honesty!

We go bye bye bye for the better
We don't have to lie lie lie no not ever
Baby when we're through uh uh uh
When there's nothing left to do
We go bye bye bye for the better
And dive in to someone new
We go bye bye bye for the better
We don't have to lie lie lie no not ever
Baby when we're through uh uh uh
When there's nothing left to do
We go bye bye bye for the better
And dive in to someone new
