

In My Mind

Prezioso

In my mind you will always find
Many pictures of you and me
Oh, sweet embrace in another place
We will love

In my mind you will always find
Many pictures of you and me
Oh, sweet embrace in another place
We will love

All I want is a little love
Someone by my side
Here with me
Just to share moments in my life
And to make my dreams become real

All I want is a shoulder to
cry and to lean on I'm in need
Just to be, to be what I am
Is there someone?
Please, come to me

In my mind you will always find
Many pictures of you and me
Sweet embrace in another place
We will love

In my mind you will always find
Many pictures of you and me
Sweet embrace in another place
We will love

In my mind you will always find
Many pictures of you and me
Sweet embrace in another place
We will love

In my mind you will always find
Many pictures of you and me
Sweet embrace in another place
We will love
