

# Limitations and Validations

Prong

Never predict, never expect  
The sequence of events  
Hold to limitations  
An avenue of escape  
Never commit, never project  
Amongst anxiety  
Make a rapid assessment  
Major happenstance, affecting

Crying out, crying out  
It all get's the best of you  
Crying out, crying out  
Where can you find the truth  
Crying out, crying out  
It all gets the best of you  
Crying out, crying out

In a place that's so confused  
To the point of resolution  
Keep crying out for truth  
In a state of limitations  
Validations

Better equipped, better correct  
The reasons for regret  
Cling to validations  
At attitude you create  
Measure effects, measure defects  
Without propriety  
Make a valid investment  
Greater circumstance of your being

Crying out, crying out  
It all get's the best of you  
Crying out, crying out  
Where can you find the truth  
Crying out, crying out  
It all gets the best of you  
Crying out, crying out

In a place that's so confused  
To the point of resolution  
Keep crying out for truth  
In a state of limitations  
Validations

Admit your justifications  
And what you do deliberately  
Avoiding ramifications  
What the consequence may be  
Instant gratification  
Got to get some gratitude  
Show some dedication  
Positive attitude

In a place that's so confused  
To the point of resolution

Keep crying out for truth  
In a state of limitations  
Validations

Crying out, crying out  
It all get's the best of you  
Crying out, crying out  
Crying out, crying out  
It all get's the best of you  
Crying out, crying out
