

# Happy Fucking New Year

Psychostick

You know that I know that we both know how resolutions  
and  
You know that you are gonna give up yet you still pretend  
You can't deny the fact that your convictions bend and  
break  
All you'll abandon every promise that you ever make

[Pre-chorus]

You're not gonna see it through  
We know what you're gonna do  
(You're gonna fail) You're not gonna see it through  
(You're gonna fail) We know what I say is true

[Chorus]

Happy New Year's Day  
2002 and 3 were just like 4 and 5 and 6  
Happy New Year's day  
You just remind yourself of all the stuff you'll never  
fix

You know that I know as well as you do it's not gonna  
last  
Did you forget results of resolutions from the past?  
File your intentions out of sight and out of mind  
You'll never follow through with promises of any kind

[Pre-chorus]

[Chorus]

Happy Fucking New Year
