

## Already Gone

Puddle of Mudd

I wanna ride through the canyons  
I'm on the run with the horses  
I'm gonna change with the season  
I wanna live for a reason  
I wanna sing for the people  
I gotta hide from the needle  
I'm on the run from addiction  
I' gonna dance with the devil yea

I'm already gone  
Won't you play along  
With all my stupid fucking games  
I'm already gone

You're always playing the victim  
You really know you're addicted  
Don't wanna live in a prison  
I'm gonna sink in the ocean  
I'm on the run from the system  
I watch the sun burn their vision  
I'm gonna fly with the angels  
I'm gonna dance with the devil yea

I'm already gone  
Won't you play along  
With all my stupid fucking games  
I'm already gone  
I'm already gone  
I'm already gone  
I'm already gone

You take away everything  
You never given back to me  
Just take away everything  
You never give it back to me

I gotta kill the addiction  
I gotta kill the addiction  
I gotta kill the addiction

I'm already gone  
Won't you play along  
With all my stupid fucking games  
I'm already gone  
I'm already gone  
I'm already gone  
I'm already gone

I gotta kill the addiction  
I gotta kill the addiction
