

Real Man

Bonnie Raitt

Don't want no secret agent
Don't need no long Cadillac
Don't want nobody with no problems
I don't need a man with a monkey on his back
I need a real man
I said a real man
I need a real man

Ain't messing with no toy
I don't need no baby boy
Don't need to send me no flowers babe
Sending flowers is real nice
Way I've been feeling my hearts been a-reeling
I need a man that loves me once
I want a man that loves me twice
Its a sticky situation babe
Keep me up late at night
Honey don't know the difference
Wanna go left when you should of gone right

I want a real man
I said a real man
I want a real man
I've been around the world
I'm a woman not a girl

I don't want no million dollers
I don't need no diamond ring
You can twist and shout
For to knock yourself out
I don't care about material things

I want a real man
I need a real man
I want a real man
I said a real man
I want a real man
I need a real man baby
I want a real man
I want a real man
Real man
Real man

Ain't messing with no toy
Don't need no baby boy
I been around the world
I'm a woman not a girl
I want a real man
Real man
