

# Never Got Around To That

Randy Rogers Band

I stood in the doorway and watched  
How she drove out of sight  
She was what you call gone long before  
There were tears in her eyes  
And I thought about begging her please  
It crossed my mind to hit my knees

But I never got around to that  
Something inside me kept holdin' me back,  
I knew what to say before she drove away  
But for the life of me why didn't I ask,  
I never got around to that.

Last night I saw her in the arms  
Of somebody new  
It almost killed me, cause he did  
What I couldn't do  
And it seems like it was yesterday  
There I stood four words away

But I never got around to that  
Something inside me kept holdin' me back,  
I knew what to say before she drove away  
But for the life of me why didn't I ask,  
I never got around...

But I never got around to that  
Something inside me kept holdin' me back,  
I knew what to say before she drove away  
But for the life of me why didn't I ask,  
I never got around to that.
