

# We Don't Belong

Ratt

A faded picture of your photograph  
You said times like these, they wouldn't last  
You know I've been there, got a second chance  
You find yourself feelin'  
What's good for you ain't always good for me  
I really do enjoy your company  
You gave your heart and then  
You let it bleed, well tonight  
Let's not hesitate  
Cause I don't mind you leavin and I don't think it's always  
Now I don't think about yesterday  
You just think what tomorrow can bring

We don't belong  
I told you for the last time  
Still the same old song  
I heard it all the first time

I know your leavin and you can't be late  
You got me movin runnin outer space  
Don't wait and see what tomorrow can bring  
But tonight I can't hardly wait

Cause I don't mind you leavin and I don't think it's always  
Now I don't think about yesterday  
You just think what tomorrow can bring

We don't belong  
I told you for the last time  
Still the same old song  
I heard it all the first time  
Where did we go wrong  
Remember all the good times  
We don't belong  
Don't want anyone, let go of me

Cause I don't mind you leavin and I don't think it's always  
Now I don't think about yesterday  
You just think what tomorrow can bring

We don't belong  
I told you for the last time  
Still the same old song  
I heard it all the first time  
Where did we go wrong  
Remember all the good times  
We don't belong  
Don't think about yesterday  
You just think what tomorrow can bring  
Don't want anyone, let go of me  
Don't want anyone, let go of me  
Don't want anyone, let go of me

A faded picture of your photograph  
You said that times like these, they wouldn't last  
Don't want anyone, let go of me  
What's good for you ain't what's good for me

I really did enjoy your company  
Don't want anyone, let go of me  
Don't want anyone, let go of me  
Don't want anyone, let go of me  
Don't want anyone, let go of me
