

# Alive

Rico Love

Alive, alive, alive, alive, alive  
Alive, alive, alive, alive, alive

Hey, hey, hey, I just got chills just now  
Soon as you walked over  
Drive my ways, jump from that  
2 clocks in  
And the feeling is just evidence  
There's something special  
When we begin, whoa oh  
This evening I just know it, I know  
You caught my body beyond compare  
Compare yeah  
I've waited for so long, love  
And right now, I see my fantasy right there

It's like tonight our dreams are made of  
Waiting my whole life for  
This moment in time  
Let's close our eyes and see where it takes us  
You'll never know, you'll never know  
Tonight, I dream I come alive, alive, alive, alive  
Tonight, I dream I come alive, alive, alive, alive

Hey, hey, hey, I can't be black... knight  
I don't wanna be closer,  
Saw your face, fell in love.
