I've been fucking around while you've been saving the world I've been out of my mind I've been dreaming things and scheming things I've been smoking the poison You've been slinging your anecdotes I've been fucking around while you were saving the world From nothing The end, the end Things will never go our way In the end, the end Things will never go So take it in, don't hold your breath The bottom's all I found We can't get higher than we get On the long way down On the long way down On the long way down Burning night in my eyes, blinding me from the truth If there's a shadow in me The dark is a tidal wave inside of you Taking shots at communion Getting drunk on your antidote I'll save you a seat next to me down below The end, the end Everyone will go away In the end, the end Everything will go So take it in, don't hold your breath The bottom's all I found We can't get higher than we get On the long way down On the long way down On the long way down Oh, ooh, oh, oh, oh, oh, oh (4x)On the long way down On the long way down, down, down So take it in, don't hold your breath The bottom's all I found We can't get higher than we get On the long way down On the long way down On the long way down So take it in, don't hold your breath The bottom's all I found

We can't get higher than we get

On the long way down

On the long way down On the long way down
