

# I Wouldn't Be Me Without You

Rodney Crowell

Sometimes I think about leaving  
And if I had someplace to go  
I might even crank up the engine  
And roll down a street just for show  
Nobody said it was easy  
But that doesn't mean it ain't right  
I don't want nobody else with me  
When it comes time to call it a night

So far I've kept every promise and this I'll continue to do  
I'll love you like nobody's business  
I wouldn't be me without you

I don't need the rain to remind me how good it feels to come clean  
The worst of the past put behind me are spoken words I didn't mean  
If I have to tell you I'm sorry for something I shouldn't have done  
It won't be for some other woman who smiles like she thinks I'm someone

So far I've kept every promise and this I'll continue to do  
I'll love you come hell or high water  
I wouldn't be me without you  
Oh, I wouldn't be me without you
