

Sunny Side Of My Life

Roger Miller

Each time I see your face
It puts me back in place
You're the sunny side of my life and I love you
Things that you've said and done
Tell me you're the only one
You're the sunny side of my life and I love you
You're the sunny side of my life and I need you
God knows I place no-one above you
You're the sunny side of my life and I love you
You know how I feel inside
My love's too strong to hide
You're the sunny side of my life and I love you
You always come around
Whenever I'm feeling down
You're the sunny side of my life and I love you
You're the sunny side of my life and I need you
God knows I place no-one above you
You're the sunny side of my life and I love you
You're the sunny side of my life and I need you
God knows I place no-one above you
You're the sunny side of my life and I love you
