We Will Make A Song Destroy

Rogue Wave

Digital campfire
Spinning the sonnets
I get it so often

Well they sold me out And called me a liar How can I get up again?

How'd you get so soured? May I remind you You bathe in what I make

Your ability is worn out
Objective expired
Well, I'll keep you meter-maided
I'll keep you meter-maided
I'll keep you meter-maided
I'll keep you meter-maided

Dir-ah, dir-ah, dir-ah, dir-ah Dir-ah, dir-ah, dir-ah

We will make a song destroy We will make a song destroy We will make a song destroy We will make a song destroy

Can't evolve past
Certain notes
No one knows me
You should know
Paint it all with
Certain strokes
Save us all with
Folks who know

To know

We will make a song destroy We will make a song destroy We will make a song destroy We will make a song destroy
