

Got That Fire

Royal Tailor

We burnin' down the walls of religion
The walls of indecision
Do I have your attention
No brakes head-on collision

Had a dream saw a vision
That suspended this reality
Threw it in the flames
The things the world is sellin' me

It's like somebody poured gasoline on my soul
The truth lit a match
Warning I'm flammable
Pull the alarm
Here come the sirens
Better believe that we got that fire

Everybody get ready 'cause here we go
Gotta flame that's taking over the globe
Yeah burning through the chains that hold
No matter what your past is, leave it in the ashes

Gonna light it up like it's pyro
Gonna set it off watch it explode
It's no secret I know you feel it
We're coming alive

We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah

We got that fire, yeah, yeah, we got it [x2], yeah, yeah
We got that fire, yeah, yeah, we got it [x2], yeah, yeah, we got it

I got a passion shut up inside my bones
My heart's about to bust I'm bleeding hope
About to lose the truth and let it glow
So radioactive I'm a box of matches

Gonna light it up like it's pyro
Gonna set it off watch it explode
It's no secret I know you feel it
We're coming alive

We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah

We got that fire, yeah, yeah, we got it [x2], yeah, yeah
We got that fire, yeah, yeah, we got it [x2], yeah, yeah, we got it

Hands up high
Hands up high
Hands up high if you got that fire

We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah
We got that fire, nah nah nah nah nah nah, yeah

We got that fire, yeah, yeah, we got it (2x), yeah, yeah
We got that fire, yeah, yeah, we got it (2x), yeah, yeah, we got it
