

Find Your Way

Ryan Cabrera

I need a lover
Who keeps me warm inside
She can discover
Anything she likes
She can pray that she could break a lot of things
like my heart

I'm sinking slowly
I see your face
It's everywhere
Love can be so mean but I don't even care
So I pray for the day you'll come back to me it's not right

Don't be afraid
I'm gonna make everything ok
Tell me you'll stay
I never wanted us to break
You'll find your way
You could have anything at all
So find your way

I need you lover
'Cause you mean that much to me
Girl do you wonder
What it all could be
True romance
We could dance our lives away it's so right

Don't be afraid
I'm gonna make everything ok
Tell me you'll stay
I never wanted us to break
You'll find your way
You could have anything at all
So find your way

Don't be afraid
I'm gonna make everything ok
Tell me you'll stay
I never wanted us to break
You'll find your way
You could have anything
So find your way
