Push It

I'm an adrenalin junkie, Just can't get enough Get bared so easily I know I'd better be lucky 'Cause I know I've got the right stuff Does anybody out there feel like me Gonna push it - till I lose control Till I reach the soul Push it, push it hard and fast Push it, like today might be my last Push it, till I'm on the edge with no safety net Push it, till I learn to fly Push it, till I meet you on the other side I gotta tkae it to the limit I will never look back Just a case of hti and run I'm headin' out of the shadows You know I've gotta move fast It's up to us to be under the gun Forgive me Father for my sins But there's no contest if no-one wins
