

## Stop and Think It Over

Saint Etienne

Had to take a train  
And get out of the rain  
Time to stop, think it over  
Another cup a coffee  
But I'm feeling the same  
Gotta stop, think it over

Could he be a lover  
I don't know what to say  
Could he be a friend  
I'm so unsure  
Could you find another  
Could it be a solution  
Come and go, maybe tomorrow

Draw the curtains tight  
It doesn't feed in the cold  
Time to stop, think it over  
My perfect city, see it turning to gold  
Had to stop, think it over

Could he be a lover  
I need a little more time  
Could he be a friend  
Just a week or so  
Could you find another  
Mmm, I can't play that game

I don't know if I'm coming or going

Could he be a lover  
I've traveled all this way  
Could he be a friend  
Well, I want more  
Could you find another  
There's a ship in the ocean  
Another day, feel like it could float away

Feel like it float away
