Underneath the world built by reason Lay the foundations of a different Perception Putting light on a brand new horizon Remodeling our own Life's conception Opening views of another dimension Revealing a home of Outstanding proportions Radiating from one's own reflection Energy's Nucleus height density concentration Feeling incomplete before the meeting While the rest of me wants to gather Sociability, sensibility Clear out charm of world illusions Philanthropy to felicity, so why can't we live with one another Dissolved, Diluted, restored and regrouped Waiting for crystallization Reunion of Different principles Leading to cohesion and different conclusions Fundamental And perennial The law of movement intersideral One small Step, one giant step, Independent and connected Thought-Omnipotence giving the access To your own soul, to other galaxies Αt Your own depth, reality Subject to hazard Susceptibility Emotionally, physically Bound and tied

Understanding before standing
Always digging your views a
Little deeper
Vision and dream accorded with one another

Giving an answer to all you wonder
Sun on your soul is significant to your
Own environment
See through the night
With an open mind
Catch up whit the light, your way you'll find
Feeling
Incomplete before the meeting
While the rest of me wants to gather

Sociability, sensibility
Clear out charm of world illusions
Philanthropy
To felicity, so why can't we live with one another
Dissolved, diluted,
Restored and regrouped
Waiting for crystallization
Reunion of different
Principles leading to cohesion and different conclusions
