

Human Pony Girl

Samhain

How do you like it so far
Giddyap

I am your power and your pain
I'll make you gallop at my pace
Human pony girl

I am the monkey on your back
And we're going for a ride home
Human pony girl

Your nights are a season at my command
Human pony girl, heeyah

This is my highway, no limit enforced
There is no law, just

Feel my spur sink in your flank
Feel it, feel it, pony

Stomach sweat in your spine
Belly up, shoulders down, pony

Gonna take you someplace you ain't never been
That's right
Only you ain't never comin' back

I am the monkey on your back
I'm gonna ride you home
Little pony girl

I am the monkey on your back
I'm gonna break you home
Little pony girl

I am your power and your pain
I'm gonna make you race
Human pony girl

Giddyap

Gonna take you someplace you ain't never been
That's right
Only you ain't never comin' back

Gonna take you someplace you ain't never been
That's right
Only you ain't never comin' back

Giddyap

I am your power and your pain
I'll make you gallop at my pace
Human pony girl

This is my highway, girl
There is no limit

Your nights are a season at my command
My little pony girl
Feel it

Stomach sweat in your spine
Belly up, shoulders down
Pony, human, human pony girl, human, you girl
