

We Can Have A Ball

Sammy Adams

These last couple nights I can't remember
But if making money's a party then I've been on a
bender
And the confidence about us simply makes us a contender
And an ocean full of bullshit, dozen talentless
pretenders
I get down for my city with my team and family with me
On a mission to completely fit the game, 360
It's a shame if you don't get me you won't be able to
miss me
I don't want a fuckin' Grammy, I want 50

We could have a ball, you could trust us ladies
Cuz we about to have some money like some trust fund
babies
Trust us ladies
Cuz we about to have some money like some trust fund
babies

Ok ok ok cool I'm an animal, who are you?
I've got girls that drink you under the table so bring
your crew
I told 'er we could have a ball, you could trust us
ladies
Cuz we about to have some money like some trust fund
babies

Been some crazy 9 months, matter fact it's been a year
Retract the stake, I'm 'bout to kick this
I'm still motherfucking here
Know the crew and we ain't living soon, that part
should be clear
And these bitches fuckin' love me, every city I appear
Crazy, have some patience, tend to make everything
perfect
Then make every second worth it, matured for the
purpose
I deserve it, it's the moment y'all been waiting for
right
So come and get it, come and get it, I ain't waitin'
all night

I told 'er we could have a ball, you could trust us
ladies
Cuz we about to have some money like some trust fund
babies
Trust us ladies
Cuz we about to have some money like some trust fund
babies

Ok ok ok cool I'm an animal, who are you?
I've got girls that drink you under the table so bring
your crew
I told 'er we could have a ball, you could trust us
ladies
Cuz we about to have some money like some trust fund
babies

We could have a ball, you could trust us ladies
Cuz we about to have some money like some trust fund
babies
Trust us ladies
Cuz we about to have some money like some trust fund
babies

Ok ok ok cool I'm an animal, who are you?
I've got girls that drink you under the table so bring
your crew
I told 'er we could have a ball, you could trust us
