Postponed

Life begins too late nowadays So much we shall fulfill We push our lives too much into the future Before we dare to live

Catch your dreams, make'em happen now

Make up your mind No one knows what's waiting on the egde Live now if there's no tomorrow Make up your mind No one knows what's waiting on the egde Live now if there's no tomorrow Live now you may die today

Education seems like a good choice Our future is secured Years from now we're grasping the glory We earned at younger days

We forgot our present, we forgot about today

Make up your mind No one knows what's waiting on the egde Live now if there's no tomorrow Make up your mind No one knows what's waiting on the egde Live now if there's no tomorrow Live now you may die today
