

# Walk the Path of Sorrow

Satyricon

In the Devoid of Sorrow  
The Air and my Heart full of Luster

Behind the Mountains  
Blasphemy to the Gates

Right passed easy Talk  
We can once again walk the Path of Sorrow  
Let the Turn of Search bring you away

Ahhhhh!

Two Shades of the Midnight Fire  
In the Night Sky  
You waiting Child walk with me  
Walk by Side of Fall  
The Essence to open those Gates  
And still we must walk the Path of Sorrow
