

# We All Fall Down

## Saving Abel

We all fall down, we all fall down...

Got me on a respirator still I can't breathe at all  
Am I another instigator it seems I can't recall  
How can we stand tall if we all fall?

(We all fall down)

Got me on a medication now I can't feel at all  
My chest is heavy, I can't run, I walk, I'll crawl

How can we stand tall if we all fall down?

How can we stand tall if we all fall?

Got me on a respirator still I can't breathe at all  
How can we stand tall if we all fall down?

(We all fall down)

How can we stand tall if we all fall?

(All fall down)

How can we stand tall if we all fall down?

How can we stand tall if we all fall down?

(We all fall down)

How can we stand tall if we all fall?

(All fall down)

How can we stand tall if we all fall down?

(We all fall down)

How can we stand tall if we all fall?

(We all fall down, we all fall down

We all fall down, we all fall down)

We all fall down!
