As Soon As The Good Times Roll

Scorpions

If you feel real sad somtimes Caught in bad vibrations And it seems you've lost your drive And your destination If you feel that life's passing by, passing by Catch the train of better times Rock tonight Hard times go As soon as the good times roll Hard times go As soon as the good times roll If you feel that all your life Is packed with complications And almost everything you try Ends up in new frustrations If you feel that life's passing by, passing by Catch the train of better times Rock tonight Hard times go As soon as the good times roll Hard times go As soon as the good times roll
