

# What Would Love Do

Scott Stapp

Go ahead and throw it in my face  
Remind me of each of my mistakes  
Turn on me tell me I'm wrong that it's all my fault  
I feel I'm losing control  
Putting my fists through the wall  
This is the place that I break I can't take anymore  
I see the fear in your eyes  
I'm frozen standing still in time

What would love do  
What would love do  
If it were here in this room standing between me and you  
What would love do  
What would love do

I broke down and fell to the floor  
Said I can't do this anymore  
I almost lost the one thing I could never lose  
I felt completely disarmed  
Naked stripped down to the heart  
Humble and shaken its time to start healing these wounds  
How do I break from this hell  
It's time I start asking myself

What would love do  
What would love do  
If it were here in this room standing between me and you  
What would love do  
What would love do  
It would look in my face and stop me from hurting you  
That's what love would do

Its time to come out of the dark  
And step into the light  
When fear tries to tear us apart  
And we're torn between two sides

What would love do  
What would love do  
It would look in my face and stop me from hurting you  
What would love do  
What would love do  
If it were here in this room standing between me and you  
What would love do  
What would love do  
It would look in my face and stop me from hurting you  
That's what love would do
