

## La Ritournelle

Sébastien Tellier

Oh nothing's gonna change  
my love for you  
I wanna spend my life with you  
So we make love on the grass  
under the moon  
No one can tell,  
damned if I do  
Forever journeys on golden avenues  
I drift in your eyes since I love you  
I got that beat in my veins for only rule  
Love is to share,  
mine is for you
