

Till the end of time

Seven Thorns

I will protect you till the end of time
I will make sure our dreams stay alive
My devotion leads me in the fight
And then if times are getting tough on us
We will find the force deep in our hearts
I will love you till the end of time

Oh, what a joyful sight
When the sun reveals
The wondrous colours of our great land
And fills our hearts with pride

Oh, what a blessed place
The divine completion
Of all nations pure ambitions
Waking with grace

And I know, yes I know that your beauty equals heavens
And I know you shall overcome any danger for all time

I will protect you till the end of time
I will make sure our dreams stay alive
My devotion leads me in the fight
And then if times are getting tough on us
We will find the force deep in our hearts
I will love you till the end of time

Though I must leave today
Join the unity your spirit
Will be with me every
Step of the way

And no matter where I go
You will always light the
Spark inside me, always guide me
Till the day I'm home

And I know, yes I know that your beauty equals heavens
And I know you shall overcome any danger for all time

I will protect you till the end of time
I will make sure our dreams stay alive
My devotion leads me in the fight
And then if times are getting tough on us
We will find the force deep in our hearts
I will love you till the end, till the end of time
